

# Institutional Development

Group members: Afghanistan, India, Myanmar, Philippines, Thailand,  
Global Livestock Agenda, ILRI

# Underlying issues and challenges

- Needs to have or strengthen an institution to address issues in the areas of

# What should be achieved?

- Assessment of institutional development level in each country to find out their existing capacities and their needs
- At regional level, the platform can provide support and advise the countries to address how the countries can address their needs

# How to achieve?

- Sharing of expertise and information
- Pooling of experts
- Learning from failure
- Strengthening collaboration
- Matching needs with resources that can be shared (HR, resources, materials)

# Who else?

- International development organizations: FAO, ILRI, SEI, APHCA, SEARCA
- International financial organizations: World Bank, ADB
- National agencies: NDDDB, RDTC, TICA, JICA
- NGOs: IFD, Melinda & Gate Foundation, CARE

# Operationalization Scheme

- FAO to be a secretariat
- Agreeing countries sign a consensus agreement or other document (informal or formal)
- The countries should take their own responsibilities and initiatives
- The leading countries, like India and Thailand can take an important role to provide technical assistance to other countries in the region.
- Are member countries willing to share finances for the operationalization of this regional platform?
